

Introducing
.110 Low Profile Positive Lock Receptacle and Housing

TE Connectivity (TE) FASTON terminals and connectors have been the industry leader in the appliance and automotive industries for years. TE continues to reinvent the FASTON product line to meet the changing trends in these industries. We have seen the trend of applications getting smaller and requiring the assurance of a Positive Lock terminal, so TE is proud to introduce our .110 Low Profile Positive Lock receptacle and housing. These new products come with the same strong engineering support and high quality that TE has provided for over 50 years.

.110 Low Profile Terminal and Housing

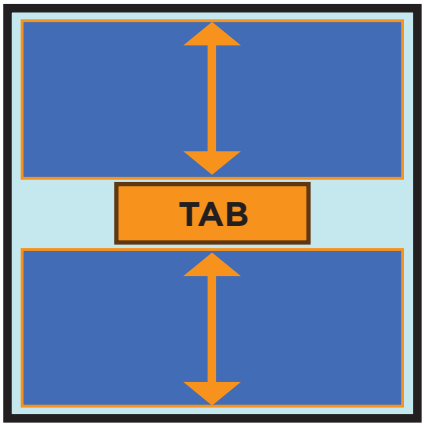

Smaller spaces

Many of today's gas igniters have their tabs centered within a shroud. As these designs are modified for increased space efficiency, the clearance around the tabs is becoming smaller.

Some solutions will not fit

Traditional Positive Lock housing's design does not center the receptacle within the housing, nor does it center the housing onto the tab. For tabs centered within shrouds, this style product is often too large.

New solution meets the need

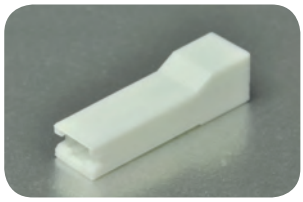

The design of TE's new Low Profile Positive Lock receptacle and housing centers the receptacle in the housing. It also centers the housing onto the tab. This allows the necessary clearance all around the tab.

1742975-1 .110 x .032 (2.8 x 0.81) Positive Lock Receptacle

- 22 - 18 AWG
- .080 - .120 (2.03 - 3.05) insulation diameter range
- Tin plated brass
- Insertion force 4 - 6 lbs (1.8 - 2.7 kg)
- Straight orientation
- Stock thickness 0.010 (0.25)

1969534-1 110 Positive Lock Mark III Housing

- V-0 120°C Nylon material, white color
- Housing is lower profile than traditional Positive Lock housing
- New design centers receptacle within the housing, allowing symmetrical clearance from the tab to the plastic shroud around tab

Общество с ограниченной ответственностью «МосЧип» ИНН 7719860671 / КПП 771901001
Адрес: 105318, г.Москва, ул.Щербаковская д.3, офис 1107

Данный компонент на территории Российской Федерации

Вы можете приобрести в компании MosChip.

Для оперативного оформления запроса Вам необходимо перейти по данной ссылке:

http://moschip.ru/get-element

Вы можете разместить у нас заказ для любого Вашего проекта, будь то серийное производство или разработка единичного прибора.

В нашем ассортименте представлены ведущие мировые производители активных и пассивных электронных компонентов.

Нашей специализацией является поставка электронной компонентной базы двойного назначения, продукции таких производителей как XILINX, Intel (ex.ALTERA), Vicor, Microchip, Texas Instruments, Analog Devices, Mini-Circuits, Amphenol, Glenair.

Сотрудничество с глобальными дистрибьюторами электронных компонентов, предоставляет возможность заказывать и получать с международных складов практически любой перечень компонентов в оптимальные для Вас сроки.

На всех этапах разработки и производства наши партнеры могут получить квалифицированную поддержку опытных инженеров.

Система менеджмента качества компании отвечает требованиям в соответствии с ГОСТ Р ИСО 9001, ГОСТ РВ 0015-002 и ЭС РД 009
